

BHUK PRODUCT SUPPLY STATUS

OESTROGEL (ESTRADIOL (0.06% W/W)) PUMP-PACK 750 µG/ACTUATION GEL

We have delivered, and continue to deliver, significant volumes of Oestrogel into wholesalers. Even so, we regret that the current supply is sometimes insufficient to meet the continuing extraordinary demand we are experiencing.

With demand continuing to increase we have taken steps to increase and expedite supplies to wholesalers and pharmacies across the country.

Besins are acutely aware of the impact this situation is having on patients and understand that they are worried about fulfilling their prescription. We advise patients who are concerned to discuss their needs with their doctor or pharmacist.

We are committed to communicating any significant changes of supply with patients, healthcare professionals and other stakeholders.

For pharmacists with enquiries regarding product supplies, please contact supplychain-bhuk@besins-healthcare.com

For patients and other healthcare professionals who have enquiries on Oestrogel supply, contact besins@eu.propharmagroup.com or 01748 828789

Reporting of side effects

If you get any side effects, talk to your doctor, pharmacist or nurse. This includes any possible side effects not listed in the package leaflet. You can also report side effects directly via the Yellow Card Scheme at www.mhra.gov.uk/yellowcard

By reporting side effects, you can help provide more information on the safety of this medicine.
